

## Utility Scale Solar PV CASE STUDY

# Cairo Solar Farm, GA

Velo is proud to announce the commissioning of our latest addition to the GreenPower EMC portfolio of projects. Our 2.4MW solar farm in Cairo, GA feeds into the portfolio of renewable projects which provide the EMC's of Georgia with clean solar power to offer their customers.

Cairo Solar Farm is one of three sister projects delivered by Velo Solar for this program in 2017. We are happy to contribute to the shift towards clean, sustainable distributed generation throughout our home state.

## Project Goals

- Deliver 2.4MW PPA to GA EMC's
- Commission before Dec, 2017
- Work with local utility for IA and Commissioning

System Size

2.4MW

ROI Payback Period

5 Years

Energy Savings
